Technical Skills

Java, C/C++,
Android Development,
Linux Kernel,
Git Source Control,
Node.js

Education

2014–Now **Bachelor of Science** Computer Science **(3.6)** Purdue University
Expected May 2017
Software Engineering and Computer Security Concentration
Management Minor

Projects

May 2015 **Radio 91x** Android Application
Developed something.

- Learned how to make amazing coffee
- Finally determined the reason for PC LOAD LETTER:

May 2015 **The Crate Escape** Unity Game
Developed something.

- Learned how to make amazing coffee
- Finally determined the reason for PC LOAD LETTER:

Dec 2014 **Purdue Eats** Android Application
Developed something.

- Learned how to make amazing coffee
- Finally determined the reason for PC LOAD LETTER:

June 2015 **Push Torrent** Node.js Server Application
Developed something.

- Learned how to make amazing coffee
- Finally determined the reason for PC LOAD LETTER:

April 2015 **IRC Client** C++ with GTK GUI
Developed something.

- Learned how to make amazing coffee
- Finally determined the reason for PC LOAD LETTER:

Experience

2015–Now **Linux Kernel Development** Minimalist C
It is really tough.

Awards

2014–Now **Dean's List** Purdue University
Awarded to the top students academically.

Relevant Coursework

Fall 2014	Introduction to Object Oriented Programming	Purdue University
Spring 2015	Programming in C	Purdue University
Spring 2015	Foundations of Computer Science	Purdue University
Spring 2015	Scientific Writing and Presenting	Purdue University

Interests

professional: mobile application development, economics, UX design, software design

personal: longboarding, cars, movies
